

**MODIFICATION TO THE CANDRIAM DIVERSIFIED FUTURES PROSPECTUS  
Mutual fund under French law**

Unitholders of the investment fund Candriam Diversified Futures are informed of the following changes:

**1) Creation of a new unit denominated in Pound Sterling hedged against the euro:**

Following the creation of this unit, named I unit in GBP, the management objective has been adjusted. This means that, for the units denominated in GBP, the objective is to achieve, over the recommended investment period, a performance higher than the SONIA.

Consequently, for the units denominated in GBP, the variable management fees are 20% of the performance beyond SONIA.

The terms and conditions of subscription and redemption, and the running and management fees of this I unit in GBP are the same as those of the already existing unit I denominated in euro.

**2) Contributions due to the AMF and exceptional legal costs linked to the collection of debts:**

These costs will no longer be included in the ceiling of the costs invoiced to the investment fund. However, they remain in the calculation of the overheads.

**These changes will take effect on 19/09/2016**

The new prospectus is available from:
